RE: CHILD FIND

Dear Sir or Madam:

The Quaboag Regional School District provides a variety of service to children with special needs. Disabled children ages 3-21 may be eligible to receive special education services. The first step in qualifying for services is the completion of a team evaluation that determines whether or not the child meets the criteria for a disability and qualifies for an Individual Education Plan. The following are the disabilities that qualify a child for special education services.

1. Autism
2. Developmental Delay
3. Intellectual
4. Sensory Impairment (hearing, vision, deaf-blind)
5. Neurological
6. Emotional
7. Communication
8. Physical
9. Specific Learning
10. Health Information

If you wish to refer a child for a special education evaluation or are in need of further information, please contact my office at (413) 436-5991 extension 1004. I look forward to assisting you.

Sincerely,

Wendy Prunier

Director of Pupils Support Services
